

## SCAN Series 1500 Document Processor

### Overview

The SCAN 1500 Series Document Processor is a cost effective alternative for medium volume data entry applications. With the speed and accuracy of much higher priced equipment, the 1500 Series is the intelligent choice for today's data entry needs. The tabletop 1500 Series is designed to be compact, easy to use, and economical. It can be used to read and sort remittance stubs and checks as well as stage documents for manual courtesy field entry.
